OIL FILTER CAN CUTTER*

FC-2000 Oil Filter Can Cutter*

*(Filter shown not included)

This is one of the fastest cutters when used in conjunction with our FH-2000 Oil Filter Holder. This cutter centers around the filter quickly, with no parts to change, and you can cut the filter in either direction. There is a clearance hole for filters with a stud.

Cuts All Tempest® Kelly Aerospace®, And Champion® 3.7" Diameter Oil Filters

Cuts Champion RB-C308 Filters Used On Rotax 912/914 Engines

Roller Bearings Provide Smooth Rolling Action

6061-T6 Anodized Aluminum

Hardened Hardware Throughout

Made In USA

Money Back Guarantee If Not Satisfied – Less Shipping

OIL FILTER HOLDER

FH-2000 Oil Filter Holder

INSIDE VIEW

- **Held In A Vice, The Holder Rigidly Supports All Tempest®, Kelly Aerospace® And Champion® 3.7" Diameter Aviation Oil Filters For Cutting**
- **Strong Cast Aluminum Construction**
- **Allows The Use Of Most Oil Filter Cutters**
- **Reduces Side Loads On Cutter Wheel**
- **Allows Faster Filter Cutting Due To Its Stability**
- **Patented Design Makes A Messy Job A Lot Cleaner And Safer! – Saves Time Too!**

OIL FILTER MEDIA CUTTER

FMC-2000 Oil Filter Media Cutter

This patented tool is designed to hold and cut Champion® aviation oil filter paper media without holding the filter spool by hand. Using this tool reduces the risk of cutting ones hands while cutting the filter media as well as reducing the time necessary to accomplish this task. The filter media is rotated in a special holder that is supported by roller bearings. A knife with a retractable safety cover is brought into position to make a clean cut of the filter media at each end. The filter media can then be removed for inspection. Patented Design.

- **Precision CNC Machined From 6061-T6 Aluminum – Black Anodized Finish**
- **Cutter Blade Can Be Reversed To Provide A Second Cutting Edge**
- **Fully Adjustable With Indexed Stops To Accommodate Either Long Or Short Filter Spools**
- **Produces An Uncontaminated Filter Media Sample For Inspection And Testing**
- **Optional Adapters Available For Kelly Aerospace® And Tempest Filters®**
